WEMAKEDEVS | TEACHING ASSISTANT

Oct 2022 - Present | Part-Time

RECOMMENDATION SYSTEM | RESEARCH WORK + PRODUCT

Dec 2021 - May 2022 | Chennai, TN

- Worked on collection and preprocessing of data from 3 different sources
- Expressed the Design and System Architecture for the WebApp/product
- Developed and designed the front-end templates with HTML/CSS/EJS.
- [Repository Link](#)

BAHURANI SAREE March 2020 - June 2021 | Bhopal, MP | Self-Employed

- Created the WebApp using WordPress, blogs writing and SEO, ranking the local GMB profile on Google.
- Suggested and added online video-call appointment feature to increase sales.
- Team Leader - Helped increasing brand awareness with Digital Marketing, started social E-commerce with payments gateway integration and logistic support. Established a proper business funnel that helped in achieving 12% more sales monthly.

PROJECTS

PORTFOLIO | [LINK](#)

- Crafted a personal portfolio website using TypeScript, Next.js, TailwindCSS and email-client integration using Resend API.
- Upcoming features include dark-mode theme and MDX-powered blogs page for seamless static site generation (SSG).

GOOGLE SEARCH | [DEMO](#)

- Developed a Google Search Engine clone with a sleek dark mode interface using Next.js, Tailwind CSS, next-themes and React.
- Implemented modular and reusable code architecture for enhanced maintainability and scalability.

COACHGROUNDS | [DEMO](#)

- Application to post and review nearby learning spaces. Build using Vanilla JavaScript and Nodejs.
- Created the HTTP server/different routes using express, implemented UserAuth with jwt and passport.js.
- Reviewed and maintained the code-base.
